

# CHRISTMAS TREE ANGEL

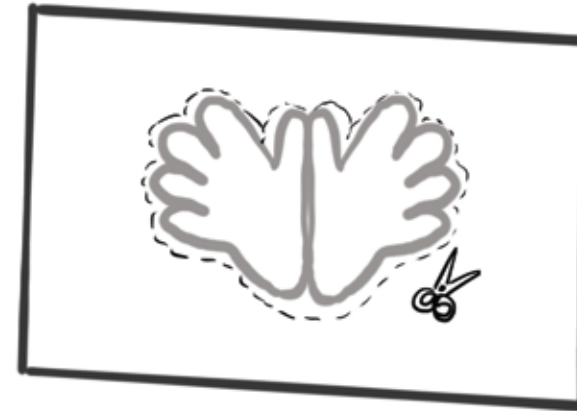

1. Cut out the Angel using this template or draw your own.

2. Ask Mum or Dad for a photo of your face (a spare school photo would work well). Carefully cut around your face and glue it on.

3. Colour and decorate your Angel body. (Glitter will be great! just remember to clean up afterwards).

4. MAKE THE WINGS by tracing around your hands. Place one next to the other and spread your fingers to look like wings.

5. Cut out the wings and glue them on the back.

6. Loop a string and stick it to the back at the top - ready to hang on your Christmas tree.

See [www.bunchokids.org](http://www.bunchokids.org) for more great ideas!
